PRIMARY HELD IN TWO WEEKS

The primary election takes place in California just two weeks from today.

In Contra Costa county, chief interest is in the race for State Senator between Will R. Sharkey, incumbent, of Martinez, and Louis E. Davis, of El Cerrito.

There is an interesting race on for supervisor, however, in the second district of Contra Costa county, between Oscar Olson, incumbent, of Danville, and Al Alberts of Crockett. This contest is expected to bring out a heavy vote. The district is largely agricultural, and contains a lot of voters.

Republicans and Democrats and all others may vote in the race for supervisor, while only Republicans may vote as between Davis and Sharkey.

Contra Costa county has 18,848 Republican voters, according to the latest figures from County Clerk J. H. Wells. In Marin county, 10,903 Republicans are registered. Nearly 30,000 Republican voters.

Four years ago when Henry Johnston, of Richmond, ran against Sharkey, Contra Costa cast 8,912 votes, and in "Marvelous Marin" 4,948 went to the polls. Out of the total of 13,860 votes cast in the two counties, Sharkey won by the thin and narrow margin of 16 votes.

KEY, PRATHER PAVING PLAN IS ABANDONED

Key boulevard and Prather avenue will not be improved this year. This was the decision reached at the meeting of the council last evening, when a motion was made and carried that the present proceedings be rescinded.

In order to get title to the west 50 feet of Key boulevard, which the Key Transit system decided to the city, condemnation proceedings will have to be brought, as an agreement could not be reached with the Oakland bank that holds a blanket mortgage on the Key System property.

City Attorney T. M. Carlson will institute a condemnation suit, and it is likely the improvement of the two streets will be taken up next year, as City Engineer Hoffman stated to the council that he would rather have the work go through as one job.

In a letter from W. B. Trull, city passenger agent, it was stated that along the outer, or water side of the wharf there were 8x8 stringers which interfered with the docking of vessels, and the sugar boat people will not dock any more vessels unless 150 of these are removed.

When this work is done it will do away with much additional switching of cars, as loading and unloading will be facilitated.

FARM LANDS BLOTTED OUT BY TORRENT

KARACHI, India, Aug. 13.—(U.P.)—Thousands of natives fled to the Tibetan foothills today as a raging torrent of millions of tons of water rushed down on the valley of the Indus river.

Forewarned by ancient fire signals from the mountain tops, the frightened natives raced and fought to reach high land before they were overtaken by the mountain of icy water, loosed by the breaking of a glacier dam which crashed and tumbled down from 17,000 feet up in the mountains.

Trees, native villages, lonely farms, nestled among the fertile valleys always believed free from the menace of floods, were utterly swept away as the wall of water poured downward toward Little Tibet.

The first break which let go the force of the pent up mountain Continued on Page Eight

Transit Company May Be Forced To Repair Lines

The condition of the streets between the tracks of the Key System Transit company was brought to the attention of the council last evening by Councilman W. W. Scott.

The councilman stated the roadways were in deplorable condition, and something should be done about it before the winter rains set in.

Scott stated that unless the strip was repaired, water would get under the pavement and the streets would be ruined.

It was Scott's idea that if the street car company could not be persuaded to do the repair work, action should be taken to force them to do it.

The matter was left in the hands of City Manager McVittie.

BEAUTY

By LAURA LANE

Dark, shapely eyebrows give character and beauty to the face, but uneven, scraggly brows are enough to spoil an otherwise lovely countenance.

If your eyebrows are light it will improve your appearance to darken them slightly with an eyebrow pencil, but if they are dark your own consideration is to keep them shaped gracefully.

Some women use a razor, but I have never found one successful, since it is difficult to shape the brows properly. Then, too, frequent use of a razor is inclined to be sharp and bristly. I recommend frequent use of an eyebrow tweezer. And remember that too thin a line is as bad as one that is too thick.

Frequently I am asked whether, in case the eyebrows are extraordinarily light, if it is advisable to have them dyed. So many hair dyes are to say the least, not beneficial that I have hesitated to approve them. In some cases real harm is done.

On the other hand I have seen some women work miracles with eyebrow dye. But on the whole it would be a great deal safer to use a pencil. There are many good ones on the market.

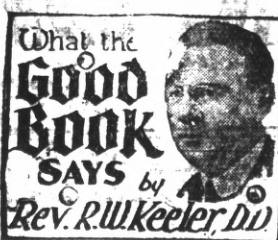

Always bear in mind that the eyebrows supply a semi-frame for the beauty of your eyes and that no matter how lovely your eyes they can be improved by equally lovely brows.

And don't tire of the tweezers too quickly. It isn't pleasant to extract hair, but the results are worth it.

My little cousin had been greatly impressed by her first experience in Sunday school. She pressed her hands to her breast and said solemnly to her sister, 2 years older:

"When you hear something whine here, it is conscience whispering here."

Q. Where did Samson's friend Delilah live?—F. C. W., Eastport, Me.

A. "It came to pass afterward, that he loved a woman in the valley of Sorek, whose name was Delilah."—Judges XVI:1.

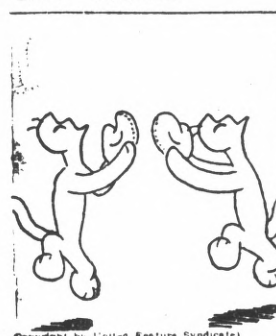

Q. What resulted from Saul's shining?—O. D. T., Philadelphia.

A. "The Spirit of the Lord departed from Saul, and an evil spirit from the Lord troubled him."—I Samuel XVI:14.

Visiting The World Children

CHILDREN OF CENTRAL CHILE

Over the mountains chugged the train that carried Elena and Edward. "Valparaiso means 'paradise valley,' and yet it is not a valley!" said Elena. The train chugged out of the high hills. It was then on narrow, rich coast land. Soon it carried the children into the hilly, half-moon shaped city—Valparaiso. Soon Elena heard the boom of the Pacific ocean. The sea threw waves against walls built to keep the water out. It snatched them back again.

"Come," said Father. "Hurry!" and the three hurried down the city street. They saw people of many lands—French, English, German, Spanish. They heard many languages. They saw street cars with women conductors, automobiles, trucks. They saw peddlers on donkeys. The peddlers sold milk, bread, fruit, vegetables. And houses seemed to hang from high hills. And high hills formed great walls at the back of Valparaiso.

TO ENTERTAIN 180 KIN
AUSTIN, ex. Aug. 13.—(U.P.)—Tannehills from New York to California are expected here this month for the centenary family reunion being planned by Frank R. Tannehill of Austin.

The reunion will commemorate the arrival of the first Tannehill in Texas. He was J. C. Tannehill who immigrated from Tennessee in 1828. His grandson, Frank Tannehill, will be one of the 180 living members of the family.

Frank has been a justice of the peace in Austin many years. PAYS OLD 5 CENT DEBT
COLA BHA CITY, Ind., Aug. 13.—(U.P.)—A debt of five cents apparently incurred some man several years ago, Sam Yontz, a grocer, received the following note: "I owed you this for years. I beat you out of it while you were still Yontz and Hallauer." The sender did not sign his name.

LOVE PLAYS A BIG PART IN RUSSIA FILM

Most pictures have to do with love, of course. But it has remained to John Gilbert, more or less noted as a lover, to inject a new idea into this thing that screen drama is made of. This idea—and it is an intensely dramatic and thunderously powerful one—is to be seen in "The Cossacks," his new Metro-Goldwyn-Mayer vehicle now playing at the California Theatre.

"The Cossacks" is huge in concept, cast and setting, and like "The Big Parade," its gigantic effectiveness serves only to accentuate the love theme of the boy and girl that runs through it. Interestingly, too, Renee Adoree is the girl.

But there is still another element of love in it: one that binds itself to more powerful drama, and that is the love of father and son. It is the love that drives a father to absolutely torture his son until the boy is bent to his death; the love of a strong fighting man that becomes almost a fanaticism under the stress of emotional turbulence. Such a love is stark drama where the other is a sweet romantic thread. And by combining the two, Frances Marion, the author has woven a drama so huge and compelling that the audience watches in spellbound amazement. Still, through it runs the sweetest love story in the world; the romance of a boy and a girl tossed hither and thither by the resistless tide of affairs. Gilbert, as the swashbuckling Cossack soldier on the Russian steppes, is dramatic, dashing, and appealing. Miss Adoree is charming as a peasant girl, Ernest Torrence, as the stern Cossack chieftain, is a figure of compelling power, and Mary Alden, as the hero's mother, Dale Fuller, Josephine Torio, Neil Neely, Yorke Sherwood, Joseph Mary, and Paul Hurst make up a truly notable cast.

Cossacks, brought from Europe, stage sensational rides in the picturesque garb of their race; glances in the colorful garb of Russia, form a background of kaleidoscopic beauty, grim torture, and the struggles of strong men in battle. The picture is a masterpiece of the screen, magnificent, gripping, and intensely human. "All Set," an Educational comedy and Topics of the Day conclude the bill.

Dainty Star

Rene Adoree featured with John Gilbert in "THE COSSACKS" at the California Theatre on Monday and Tuesday.

Greater Film Season Starts Here Saturday

Plans for a gala celebration of Greater Movie Season for 1928-29, which will be officially inaugurated on Saturday, are announced by A. M. Bowles, Division Manager for West Coast Theatres, Inc.

The Greater Movie Season festival will be participated in by every motion picture theatre on the Pacific Coast. Its primary purpose and plan is to bring to the attention of the movie picture public the latest and best screen entertainment, and to foster a greater interest in and for the theatre world. It is also a time when all of the material resources of the coordinated amusement world are placed on "dress parade."

Within the week there is promised a complete list of stellar attractions for the individual theatres, all of which will give some indication of what is in store for picture patrons. Full cooperation of the entire motion picture industry has been assured and there is a promise of bringing forth an unusually large number of film attractions to aid in and to carry out through the year the spirit engendered by the Greater Movie Season celebration.

HOOVER WILL AMPLIFY HIS FARM POLICY

BY PAUL R. MALLON
United Press Staff Correspondent
SAN FRANCISCO, Aug. 13.—(U.P.)—Herbert Hoover is to make a complete and detailed amplification of his farm relief program in a speech he finished today for delivery August 21, at West Branch, Iowa.

The republican nominee will lay down in that document the specific recommendations for legislation which he will make to congress to remedy the agricultural situation if he is elected president. He will tell of changes he will suggest in tariff regulation to give the farmer equality with industry under that law; he will map out his program for development of inland waterways to furnish cheap freight rates and he will make known his plan for reorganization of the co-operative marketing system along economic lines.

The tariff recommendations will be designed to give the farmer complete protection from outside competition—against wheat importation from Canada, corn and hide importations from South America, onions and diversified products from other countries.

The inland waterways program will be framed to encourage speed in conclusion of the improvements contemplated in legislation already passed by congress, together with recommendation for early alteration of a feasible outlet from the Great Lakes to the Atlantic ocean.

The co-operative marketing reorganization, Hoover believes should be undertaken along lines laid down in the party platform which endorsed the Jardine plan for federal aid to co-operative organizations.

The speech will be delivered to midwestern farmers and republican leaders who are to assemble at his Iowa birthplace to celebrate his homecoming, the nominee is expected to arrive at West Branch the morning of August 21, where he, Mrs. Hoover and his son, Allan will breakfast in the house where he was born. The speech will be delivered in the afternoon.

Hoover spent the morning today reading telegrams of congratulations sent to him by prominent business men and party leaders of all sections of the country on his acceptance speech delivered at Palo Alto Saturday. Carmel Thompson, Alto leader, who vigorously opposed Hoover in the primary battle, wired: "You have satisfied the republicans and the people of Ohio generally and I look for an overwhelming victory in November."

George K. Morris, New York leader, predicted in a telegram that the speech means New York will cast its 45 electoral votes for the Hoover-Curtis ticket. Felix Warburg, prominent New York banker, wired that Hoover's election in view of the speech "is inevitable."

It seems after all that William Tilden isn't a professional. To play safe, he ought to let somebody else change his typewriter ribbons.

Orchestra Leaders Class

Paul Ash Originates New Class for Orchestra Leaders

New York City.—Teaching people to be themselves will be the unique and not entirely simple job which Paul Ash, first "personality conductor," will undertake when, and if, he retires as leader of one of the world's most famous orchestras, to train other conductors how to use their personality in music.

"Here is one place where the bright young man with no experience will be welcomed," declares Ash. "The idea of the experienced young man about personality conducting is usually evolved from copying some already-arrived conductor. I have set down experience as a liability rather than an asset for my pupils. So many leaders try to copy the successful ones, and as a result, fail utterly to develop themselves. They are nothing but an imitation of something good, and people are resentful of 'something just as good.'"

DRAMA, COMEDY ARE STRONG IN POLICE MOVIE

A deft and skillful combination of melodrama, pathos, comedy and realism, told in scenes both colorful and thrilling, makes "The Shield of Honor" the Universal which opened last night at the Richmond theatre, one of the most entertaining photoplays of the season.

The entire picture is a glorification of the nation's arm of the law, the policeman. He is shown at work and at home, and the picture brings home vividly the dangers and hardships to which the policemen of the metropolitan city are subjected. Some of the most thrilling fight and fire scenes ever filmed provide the elemental climaxes of the picture, with additional drama added by two airplanes in a thrilling battle increases the intensity of the story.

Both Neil Hamilton and Dorothy Gulliver, who carry the love interest, give excellent performances. With Ralph Lewis, a veteran character actor, in one of the greatest characterizations of his career. Always a type that is in demand for just such a role as he depicts he has literally outdone himself as the most respected and honored officer on a metropolitan police force.

Nigel Harrie, formerly seen in "The Lone Eagle," appears in "The Shield of Honor," this time out of uniform, as the police villain who betrays his employer and tries to win the hand of his daughter, Thelma Todd, formerly a Massachusetts school teacher, and a new comer to the screen, gives an excellent portrayal of a modern stenographer gone wrong.

Others seen in the cast are: Girard, William Blakewell, and Fred Emlen, Emory Johnson directed the picture.

Also on this bill are: a knock-out Jimmy Adams comedy, "Meet the Folks," Topics of the Day and Aesop's Fables.

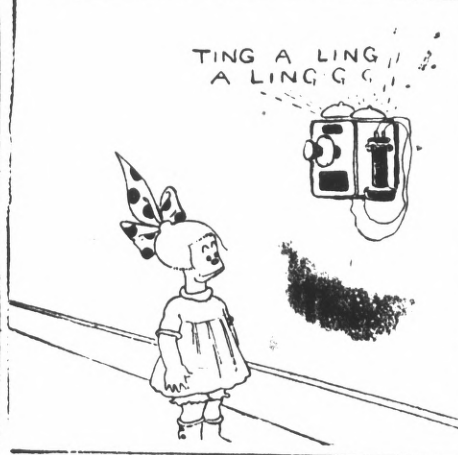

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically, and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

When Safe Deposit Boxes Were Luxuries

SEVENTY-THREE years ago San Francisco newspaper published an advertisement for a firm that had devised a sort of a safe deposit service. The vault was described as "thorough in every respect, having double iron doors, secured by Hobbs patent locks." Cash boxes were rented for two dollars a month, and valuable papers were cared for at a cost of one dollar a month. Today a good-sized box in the vault of a convenient office of the American Trust Company may be rented for a little more than one cent a day. There is nothing so safe as the modern safe deposit vaults.

State Gypsies Celebrate Queen's Death Anniversary

MARTINEZ, Aug. 13.—Gypsies, 50 cars of them, gathered Saturday night from all over the State to celebrate the sixth anniversary of the death of Queen Julia Adams, 48, who died suddenly in her fortune telling booth in Benicia June 23.

The dark-skinned rovers of the world have been gathering at the auto park for the past week, pitching their tan-colored tents and building their charcoal fires.

Final preparations for the feast were begun early Saturday morning. Four dozen each of turkeys and chickens, five young pigs and two lambs were kept sizzling on spits all day, and small boys were kept busy turning them. Crates and crates of celery and onions arrived to make up part of the feast. For dessert, water-melons and cantaloupes were supplied by the dozens.

The feast itself began at seven o'clock. The gypsies squatted on the ground around the great bonfire, holding well browned turkey drumsticks in equally well browned hands. Large juicy onions and even legs of mutton were firmly grasped in many willing paws and crammed beneath huge black moustaches. Dusky women in long green, purple and orange dresses, and red and blue bandanas brought more charcoal to feed the flames and sliced more meat for the noisy black bearded men. Yelling, brows skinned boys and girls scurried in and out around the legs of their elders with mouths crammed with chicken and barbecued pork.

Late Saturday night the celebration was still very much in progress and no let up in the festivities was perceptible. About 200 gypsies participated in the celebration and over 200 white visitors acted as spectators.

After the death of every queen a celebration is held, another in six weeks, still another in six months, and a final day of festivity is observed one year after the death. All celebrations take place at the spot where the queen died.

King Steve Uwanawich was not present at the festivities, being confined to his home in Los Angeles.

A damper was cast on the latter part of the evening with the arrival of word that Baby Uwanawich, granddaughter of the king, had died at the Children's hospital in San Francisco, where she was taken last week with a severe attack of indigestion.

DETAILS OF BIG RADIO HOOK-UP ARE EXPLAINED

Here are facts on the Hoover radio hookup at Stanford Stadium last Saturday:

Radio audience, 70,000,000.
Stadium audience, 90,000.
Broadcast networks used, 3.
Radio stations hooked-up, 99.
Miles of telephone wire, 125,000.
Telephone staff in charge, 26 men.

Microphones in stadium, 20.
Amplifying horns, 11.
Largest horns, 10 feet.
In the greatest radio-telephone broadcast ever arranged, involving more miles of wires than ever before used in a radio hookup, the Hoover notification ceremony at Stanford stadium Saturday afternoon, August 11, was literally world-wide.

In addition to 90,000 persons through out North America listened in to his speech. Without doubt, listeners in throughout the world also heard much of the ceremony.

America's 99 premier radio stations were linked together over 125,000 miles of wire of The Pacific Telephone and Telegraph Company and 23 allied companies. Personal tests made by President Pillsbury and Operating Vice-President N. R. Powley, of the local telephone company on Wednesday proved the entire absence of echoes and distortion in the stadium amplifying and broadcast system.

Three separate broadcasting wire networks distributed the Hoover ceremony through the national Broadcasting Co., the Columbia Chain, and the Hearst radio service.

In order to prevent any possibility of a complete breakdown in the great broadcast network, the telephone company installed an emergency system for the stadium loudspeakers and set aside an entire emergency wire circuit. To accomplish this purpose twenty-six telephone company engineers under the direction of G. H. Jess, manager of auxiliary services of the telephone company have been at work the past six weeks.

During the broadcasting hundreds of radio engineers and telegraph operators controlled the transmission, and thousands of technicians and telephone wiremen patrolled the voice paths between broadcast stations. Control of broadcasting centered in a tunnel under the Stanford stadium, where engineers alertly watched hundreds of instruments.

The installation of the public address equipment at the Stanford stadium was pronounced by experts to be the most complete and efficient sound amplifier ever assembled. The entire 90,000 persons in the stadium heard the speakers as distinctly as guests on the speakers' platform.

The installation comprised horns mounted on a tower 25 feet high above the speakers' stand. Two of the horns will throw sounds 750 feet. Eighteen amplifiers were provided at San Francisco for distributing the program north, east and south.

Man Asleep In Car Held On Charge Of Drunkenness

MARTINEZ, Aug. 13.—Is a motorist after over-indulgence in strong liquor, who parks his car in the middle of the highway while he takes a snooze, liable to arrest on a "drunken driving" charge?

Traffic Officer T. L. Dungan isn't exactly sure, but in his opinion the motor vehicle act clause which defines obstruction of traffic hardly fits the case, so after scanning the list of offenses carefully, he could find no other classification which applied whereupon he handed Domencio Bassi of Pittsburg a citation for "driving while intoxicated" even though Bassi was asleep in the parked car.

Dungan reasoned that even if Bassi wasn't driving at that instant he must have been shortly before, else the car would never have been brought to stop in the position which he found it. Justice Wade Moore in Pittsburg will make the future decisions in this particular case.

BANDITS FIND GIRL IS THEIR CRIME NEMESIS

NEW ORLEANS, Aug. 13.—(U.P.)—Warning to bandits! If you have carried on your profession successfully and thus far evaded arrest, guard yourself against falling in love with Bessie Moran, 22 year old "queen of the bandits," now in a New Orleans jail, as a fugitive from Mississippi where she is wanted in connection with the theft of an automobile. Bessie is admittedly the nemesis of gangland.

Three of Bessie's sweethearts are now doing various sentences in penitentiaries and she is looking for other "victims."

"Just playthings, poor dumb things. They are made to dynamite. One's as good as another, and they are all alike," she said. "It's the married men that fall the easiest."

Bessie had just been taken to see her latest admirer, Charles Whitney, confessed holdup man, who probably will be sent to the penitentiary within a short time. Bessie's husband, Frank Jackson, convicted of embezzlement, had left for the state penitentiary only a few hours prior to her call on Whitney. She married Jackson in Cleveland, Ohio, she said. The couple was arrested in Montreal, Canada, and returned here.

Ernest Brighton, said to have been one of Bessie's early admirers, is already doing a three to five year term in the Louisiana penitentiary for robberies committed in 1926.

"It's dangerous to be my playmate," said Bessie who with the exception of the Mississippi charge, has always managed to absolve herself of any connection with the crimes of her lovers.

The Last Town Crier passes

Not so long ago, the newspapers made quite a feature of the retirement of the last-known public Town Crier. For years he had trod the streets of Provincetown, Massachusetts, ringing his bell and crying out the news and what not.

In Colonial times and during the early days of the Republic the Town Crier was a public institution. People depended on him for the latest news as well as for information regarding the sales of goods by local merchants. But the newspaper and advertising made his services unnecessary years and years ago.

Today we turn to the newspapers for our news—and to the advertising columns for news of merchandise as naturally as we do to the sports page, the home economics page, the financial page or to any one of the specialized features that make the modern newspaper so indispensable to our every-day life—and advertising is as indispensable as the news, for advertising is news.

Advertising is the news of the moment just as surely as the latest press dispatch. It tells us what and when and where to purchase to save money and time and energy. It touches our daily lives in a thousand ways—it affects the health of our children, the happiness of our families and our own well-being.

Read the advertisements in the daily papers. They are vitally important to you and yours. They are your loyal friends and advisers.

PABLANS BEAT SANNIES AFTER CLOSE CONTEST

Phil Jones' Richmond Sannies took the bitter pill of defeat in their contest with San Pablo on the latter's grounds Sunday by a score of 7 to 6.

It was anyone's game up to the final out in the last inning, Peacock of San Pablo cutting out a last minute rally by the Sannies when he made a sensational catch of a ball driven from the bat of Johnny Huzeka.

Although Jones' men were out by more than two to one, they were able to keep up their threats throughout the game because of errors by San Pablo.

Three runs in the first and another in the second started San Pablo off with a fat lead that Kamb and Brendel were able to hold throughout the contest.

San Pablo, by its victory, took a firm grasp on first place position in the Maxwell league. Next Sunday the league leaders will meet Ray Point, while the Sannies tangle with the Italian club of San Leandro.

ALLISON RANKS WITH BEST OF TENNIS STARS

BY STAN ERSKINE

Prominent among the young tennis stars participating in tournaments throughout the east, Wilmer Allison, University of Texas star, is ranked with the best of them.

Allison was selected for the Davis Cup team after the Florida matches. He participated in the zone matches against Mexico. In the second trials in Kansas City, he was eliminated by the southern junior Coen, protégé of William Tilden.

Shorn of Davis Cup honors, Allison was unable to defend his intercollegiate title having withdrawn from school to play against Mexico. The Texas star however, within a period of three weeks has won the Longwood Bowl title and the Canadian national championship.

Finals between Allison and J. Van Ryn, East Orange, N. J., have become an institution in tennis. Van Ryn, Princeton star, was runner up in both the Longwood Bowl and the Canadian national championship matches.

Justice Seligson, of Lehigh University, has had his share of victories. The New York star captured the intercollegiate title recently vacated by Allison, and added to it the Metropolitan singles title.

The rise in the tennis world of Seligson is perhaps the most spectacular of the lot. He has developed into a great shot maker. His best stroke is still the wonder net forehand upon which he has built his game. The player whom Bill Tilden lightly disposed of last March as possessing mediocre skill also has acquired a formidable backhand.

Allison relies chiefly upon his service. It is a difficult offering to return. Once Allison is permitted to come inside the service line, he will make trouble for the hardest hitter in the game. The lob has proved his greatest weapon to account.

Steadiness marks Van Ryn's game. The New Jersey boy has been gradually raising his game toward the peak which earned him number six rating last year.

Richardo, Papa, Mexican Davis Cup player, Gordon Lam, captain of the Chinese Davis Cup team, and Red Thidemer, Dallas Texas, have been moving with fair success this season.

Senators Hold Inside Lane On Weeks' Playing

SAN FRANCISCO, Aug. 13.—(U.P.)—The league leading Senators will hold the inside lane again this week, meeting the last place Seattle Indians, while the second and third place clubs of the Pacific Coast league will have stronger opposition.

The third place Seals will go south to play Los Angeles, a team fresh from five wins in seven games against Hollywood. Oakland will be guest of the Portland Beavers.

There were no games scheduled today.

Olympic Team Sails For U. S.

By FRANK GETTY

United Press Sports Editor

AMSTERDAM, Aug. 13.—(U.P.)—The liner President Roosevelt, carrying the United States Olympic team home from the Olympiad, left at 12:36 p. m. today for New York.

Representatives from many other nations also left for home today, leaving Amsterdam somewhat deserted after many days of athletic pageantry.

The Olympic games were officially brought to a close Sunday when Queen Wilhelmina awarded the Olympic prizes. The United States received 22 first place medals, 17 second place medals, and 19 third place medals, for a total of 58 prizes.

Many of the United States athletes were not here for the closing of the games, but were scattered all over Europe, participating in various athletic meets.

After proclaiming the 1928 Olympic games over, Count Baillet-Latour said:

"We now ask the youth of the land to meet again four years hence at Los Angeles for the tenth Olympiad."

The 220-yard free-style P. A. senior title went to Evelyn McIlford, San Francisco girl, who easily defeated Frances Perricone, of Richmond. Miss Perricone surprised by leading Norma Kearney to the finish. Gloria Scigliano failed to place.

America Faces Hard Fight To Win Walker Cup

LONDON, Aug. 13.—(U.P.)—British golfers believe they have a surprise in store for America in the Walker Cup team which will meet the United States team at Chicago August 30 and 31. There is even some hope that the dark horse of the British team may defeat Bobby Jones.

Thomas Philip Perkins, 23, of Birmingham, present British amateur champion, probably will be Bobby's opponent at Chicago. He is considered the best bet on the British side in the foursomes. The leading amateur in the British open for the last two years.

H. Wethered, who lost to Perkins by 6 and 4 in the final at Prestwick, was selected as a member in the final of the Walker Cup team, but was unable to make the trip. T. A. Stout, English champion, and Sir Ernest Holderness were also selected but unable to go to America.

Of the ten men selected, only three played in the last match at St. Andrews two years ago. They are Cyril Tolley, Major Charles Hazlet and Eustace Storey. T. A. Torrance has played in one Walker Cup Match. W. L. Hope has been a member of two Walker Cup teams. He five men who will compete for the first time this year are:

T. P. Perkins Dr. William Twidell, John Beck, Ronald Hardman, and Dr. A. R. MacCallum. Perkins demonstrated his worth at Prestwick.

CARMEN DROP 8-4 CONTEST TO MARGETTS

The Richmond Carmen played erratic ball behind the pitching of Wickesser with the result the local club came out on the short end of an 8 to 4 score in a game with Margetts of San Francisco Sunday.

The transbay club broke a 4 to 4 tie in the tenth inning to win the contest.

Poor baserunning was blamed for the defeat of the Carmen.

Wickesser pitched brilliant ball throughout the game, allowing 10 hits and striking out 14 batters.

EL CERRITO TO ACT AGAINST EX-FIREMEN

A letter from the Volunteer Fire department of El Cerrito, Calif., was received by the council at its meeting Monday night, stating that members of the old department refused to give up their badges and were using them illegally and asking that the city take steps to recover the badges, was referred to City Attorney J. H. Peters.

Mayor Phil A. Lee announced to the audience that the council would sit as Board of Equalization every night for the next ten days.

Request of the Oakland Motor club to hold a motorcycle hill climb in El Cerrito on September 30 and divide the profits with the Volunteer Fire department was referred to Chief of Police R. R. Cheek and Fire Chief Arthur Byrd.

Petition of residents for a street light at Yuba street and Hillside Road was referred to Light Commissioner Ernest O'Brien.

Report of City Treasurer Cora J. M. Simonson showed balances on hand August 1, in the following funds: Fire Bond fund, \$186,120; motor vehicle fund \$18,363.32; and General fund \$699.36.

Police Judge J. F. Plank reported collection for fines for motor vehicle violations for July of \$1652.

Collections for the month of July were \$286.15, according to report of Tax Collector R. R. Cheek. Building Inspector H. E. Wood reported building permits with valuation of \$13,330 were issued during July.

Councilman Ernest O'Brien in reporting on the letter received by the council sometime ago from Charles Kaufman, which suggested that the city reduce its payroll, erect street signs and clean up San Pablo, stated that the council had reduced the payroll was considering an ordinance which would clean up the avenue and that the city could not do anything toward street signs with the city's treasury in its present depleted condition.

The report was accepted and placed on file.

An effort of W. D. Stark to discontinue the payment of \$150 claim by the council for detective service, which resulted in arrest last week, was cut short by Mayor Phil A. Lee, who stated no one would be allowed to speak from the audience until after the council had finished the paying of bills.

City Clerk Alice Morris was instructed to notify the light company to discontinue the street light on Curtis between Hill and Blake streets.

Dr. Jenkins Attends Meet In South City

Dr. Irene C. Jenkins of Richmond, was joined with hundreds of the most distinguished chiropractic physicians in America in attendance of the fifth annual convocation of the National Progressive Chiropractic association, held from August 6 to 12 at the Los Angeles College of Chiropractic, Los Angeles, according to reports from that city.

At the request of the general chairman, Dr. Charles H. Wood, he has taken part in numerous discussions, has read several papers and has been appointed in honor of many clinical demonstrations.

The convention is viewed by the chiropractic profession, it is said, as one of the most important events in the history of the association. Plans were launched for extending principles of progressive chiropractic into every state of this country, and for greatly broadening the scope of the chiropractic profession.

It is the belief of the progressive chiropractic adherent that numerous remedies, such as electrical treatments and surgery should be included in treatment of the patients in addition to spinal adjustments, and that the chiropractic operator should have a complete knowledge of pathology, bacteriology, chemistry and kindred studies. A move also was made at the convention for abolishing the terms, "chiropractor" and "practitioner," and substituting the more dignified "chiropractic physician" therefor.

FARM LANDS BLOTTED OUT BY TORRNET

Continued From Page One
Stream occurred Sunday at 8 p.m. The fearful natives found great cracks from the giant fire-floods and with a mighty rush nature's dam went hurtling down through the unsheltered valley.

Mindful of the friendly tribes to the west, the natives lighted fires. The thunderous crashing of the waters had been heard below in the valley but it was not until the danger signals were seen on the distant mountains that the people started their timely trek to safety on higher ground. Leaving behind them that could not be readily gathered together for the hasty departure, the peoples fled. Upon arriving at a safe height, they flashed the ancient danger signal to friends farther down the valley.

Little is known here of the actual extent of the flood. It is expected that it will cover the entire Indian valley. The seriousness of the situation can only be realized when it is pointed out that the Indus and its tributaries drain an area of 375,000 square miles—an area eight times as large as the state of Pennsylvania.

From Tibet where the force of the flood is now working havoc with the entire valley of the tributary there, the rush of water must pass through Little Tibet, along the eastern border of the northeast frontier provinces, down through Punjab, south to Sonj, and empty through the river's deltas into the waters known as the mouths of the Indus, 50 miles from this city.

HOT OFF THE GRIDDLE

(Continued From Page 1)
A second-hand Ford all would have been arrested, and probably held without bail and their names given out to the press. Never plunge into a pool from a Ford car. That is the moral to be gathered from the Kensington pool episode.

THE MANAGER OF A NEW York restaurant is killed by gunmen while he tries to save \$20.26 in his cash register. When they held him up he threw plates at them, and they shot him. They probably concluded that the money they found in his cash register justified the job. It is common talk in the underworld that some of those who earn their living with a gun can be hired to shoot a man for \$50. Needless to say, the bandits who killed the restaurant man got away.

ONE LITTLE EPISODE of the Olympic Games in Holland should impress the American public. All flags except one were dipped when the various athletic delegations passed the royal stand. The Stars and Stripes, true to the tradition that our national emblem shall never be lowered to man or nation, was born aloft. The only way to carry the American flag is to hold it up. It does not have to be dipped before any throne or any royal stand.

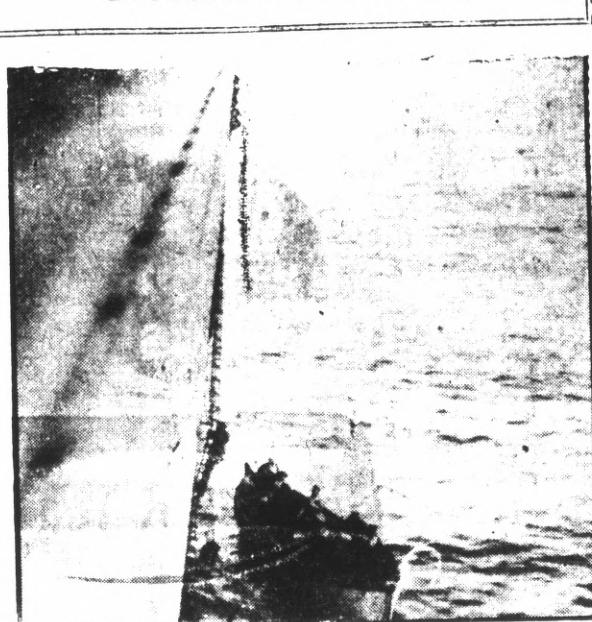

UP IN NORWICH, Conn., a city which is known as "the rose of New England," the police commissioners have ruled that any woman who ventures in the street in knickers instead of a skirt will be arrested. The variety of skirts worn these days by the good ladies of Norwich is something with which the police commissioners of Norwich are more familiar than this writer. Judging from what is seen in other cities, and presuming that Norwich is following the prevailing fashion, knickers cannot be more "seamy and vulgar" than the short skirts this summer has produced. At least, a lady in knickers can sit down without exposing an expanse of thigh. And that has ceased to be shocking long ago.

Circulation Of Libraries Here Show Big Gains

The eighteenth annual report of the Richmond Public Library, filed with the council last evening by the librarian, Norah McNeill, shows the institution to be in a flourishing condition. During the past year there were 254,057 books circulated by the main library and its branches. This is an increase of 25,843 over the previous year.

The various kinds of books and periodicals circulated for the past twelve months was apportioned as follows: books, 314,674; periodicals, 6512; mounted prints, 32,583; pamphlets and clippings, 288. The receipts of the library for the past year were \$34,010.62 and the expenses \$28,477.75.

Past Sachem's Night Observed

Past Sachem's night was celebrated by Onetah tribe of Redmen last night in Redmen hall with J. Church as sachem. L. Michel as junior saganamore, F. Marchetti, senior saganamore and R. H. Cunningham, prophet.

A program was presented consisting of speech of hand numbers by Berkeley residents by M. W. Jones and Emmett Dally, a monolog by Frank Shubert, selections by the Onetah tribe, orchestra and a story told by L. Michel. A banquet was served by a committee headed by R. H. Cunningham and L. N. Jarvis was chairman of the evening.

The tribe plans to visit Carquinez tribe in Crockett Friday night and will attend the celebration to be held Saturday and Sunday in Vallejo.

Odd Fellows Stage Degree

The new degree work of Eclipse lodge of Odd Fellows was presented last night for the first time when a class of candidates received the third degree. The work was in charge of Lester Skow, degree master, and was well received by the members.

A surprise banquet was served following the business meeting by the social committee consisting of L. O. Beam, Edward Kamb and E. Booth.

Plans were completed to attend the picnic of Crockett encampment which will be held at Recreation camp on the Russian river next Sunday. A set of caxels will be awarded to the Odd Fellow or Rebekah lodge having the largest representation and Eclipse lodge is anxious to receive the award. There will be a baseball game in the afternoon between a team composed of members of Contra Costa encampments and Canton No. 5 of San Francisco. Boating, swimming, fishing and picnic sports will add to the entertainment.

The transportation committee for Eclipse lodge is L. O. Beam, F. H. Harper, H. J. Locke and J. C. Hitchcock.

Legion Opens Annual Meet

STOCKTON, Aug. 13 (U.P.)—Members of the American Legion in California opened their tenth annual convention here today.

A parade of all delegates preceded the opening talks by Governor Young, Lt. Gov. Burton Pitts, Senator Samuel Shortridge and State Commander Phil Dodson.

Political talk predominated the session from the start. Small groups assembled and discussed the qualities of five candidates for the post of state commander. The quintet consists of William Breite, Oakland; Fred Behergall, San Francisco; Tom Quinn, Eureka; B. Gearhart, Fresno and Frank Belgrano, San Francisco.

Plans Made For Style Show Here
